

The City of Anderson Police Department has a team specifically devoted to DUI detection and prosecution. These team members are specially trained in this area of expertise. The DUI team works a schedule, which coincides with the times most likely to see more impaired drivers behind the wheel. While working the entire city, the team also concentrates on the areas where most impaired drivers are likely to be found. Detecting and prosecuting Driving under the Influence cases takes a great amount of specialized training and the Anderson Police Department continues to provide these officers with the tools they need to perform their duties. The main purpose of the DUI team is to take impaired and intoxicated drivers from behind the wheel so that ultimately, the streets of the City of Anderson will be safer for us all.
